

# INSTRUMENTS AND METHODS FOR ASSESSING THE IMPACT BEHAVIOR OF FRUIT AND VEGETABLES

**Daniel Mihai DĂNILĂ<sup>1</sup>**

**Abstract:** *This paper presents two methods used at international level for assessing the impact behavior of fruit and vegetables. The impact behavior of fruit and vegetables can be simulated by an instrumented sphere. Also the digital potato is an adequate tools to asses the impact between vegetables and hard surfaces.*

**Key words:** *fruit, vegetables, impact, sphere, digital, potato.*
