

# THE TOTALITARIAN STAMP

Claudiu COMAN<sup>1</sup>

**Abstract:** *In the majority of the private discussions, the political class is criticized and sworn but we feel the desire of joining the sworn ones. People go to a manifestation because they have to, maybe they get something and in an hour's time all the pubs in the area are full. There is an almost irrefutable modality of recognizing those actions that were stamped by totalitarianism when something is done or organized because it has to be.*

**Key words:** *totalitarianism, political class.*
