

SOME CONSIDERATIONS REGARDING SOCIAL CLASS INFLUENCE OVER THE INDIVIDUAL'S LIFE AND EVOLUTION

Raluca ZANCA ¹

***Abstract:** The affiliation to a certain social class contributes to the substantiation and then to the individual's continuation of a certain social "profile" which will definitively put a mark on his social evolution. Elements such as: life expectation, life style, the attitude towards work or even subjective elements such as the perception about happiness are strongly conditioned by the individual's social position.*

***Key words:** social class, ethnocentrism, class position, work, lifestyle, happiness, social evolution, life expectations.*
