

## **THE ROLE AND THE PLACE OF THE PRIMARY MEDICAL CARE / FAMILY PRACTICE IN THE NATIONAL HEALTH SYSTEM**

Lecturer *Alexandru Bălescu* MD, PhD  
Faculty of Medicine, “Transilvania” University Brasov

The influence of the primary medical care has been recognized in time. Today, not only the sociologists, psychologists, economists and policy analysts, but also the medical practitioners contribute to the health and illness understanding and evaluating, trying to identify new solutions for health problems.
